

Get reimbursed for Medicare Part B premiums

For FEHB Medicare Advantage 2 and
High Option Choice plan members

What is the Medicare Part B reimbursement?

As part of your health plan benefits with Kaiser Permanente High Option Medicare Advantage 2, High Option Choice, or Standard Option Medicare Advantage 2, you and any eligible dependent can be reimbursed for the Medicare Part B premium you pay. This reimbursement does not include the Medicare Part B late enrollment penalty or the Income-Related Monthly Adjustment Amount (IRMAA).

The reimbursements will be distributed by HealthEquity, an IRS-authorized, non-bank trustee that operates as the custodian.

Your first reimbursement may take approximately 30 to 60 days to process.

After you file for your first reimbursement, you will not have to file monthly thereafter and will continue to receive reimbursements each month.

You will stop receiving the reimbursements if you cancel your Kaiser Permanente Medicare Advantage health plan or if you stop paying your Medicare Part B premium.

Kaiser Permanente is an HMO plan with a Medicare contract. Enrollment in Kaiser Permanente depends on contract renewal. Enrolling in Medicare Advantage for Federal Members will not affect the benefits you receive through the Federal Employees Health Benefits (FEHB) Program, although the network and other rules of Medicare may apply. FEHB Program coverage is described in FEHB brochure 73-012. To join a Kaiser Permanente Medicare health plan, you must reside in the Kaiser Permanente Medicare Advantage service area in which you enroll.
