

Quality care starts with quality doctors

WE DON'T STOP THERE. Kaiser Permanente's integrated model of care and coverage means that our doctors are free from having to manage administrative tasks, and can focus completely on your health. So you get high-quality, personalized care from doctors who get to know you—and your health needs.

And, our doctors share information through an electronic health record system. This allows you and your care team to make the best decisions for your health.

See how it all comes together at kp.org/thrive.

BALTIMORE MAGAZINE METHODOLOGY

To arrive at our results, our annual online poll surveyed thousands of physicians in the region to find out where they would send a member of their own family in dozens of specialties (participating physicians had to identify themselves). Assisting us with the survey were three physician advisers who were not eligible to be included on the list themselves.
